NEWMAN PROPOSED AMENDMENT NO. 4

0000132882

TIME/DATE PREPARED: December 13, 2011

COMPANY: Tucson Electric Power Company

AGENDA ITEM NO. 16

DOCKET NO(S). E-01933A-11-0269

OPEN MEETING DATE: December 13-14, 2011

Page 34, line 28, **INSERT** New Finding of Fact:

“The Commission believes that a DE program for the production and custom home builder market is important to the future of solar in Arizona and believes a specific budget set aside, from the UFI residential budget, should be implemented into the RES DE budget for PV and SHW REC purchases. The Commission believes that set-aside of \$500,000 for 2012 will be sufficient. These funds would be allocated to builders who install solar PV or SHW on homes that qualify for TEP’s Zero-Net Energy Homes Program. If a builder was not participating in the Zero-Net Energy Home Program, they could participate in TEP’s SunShare program budget. The Commission also recommends the following program offerings:

- Incentive level of \$1.45/installed watt for the homebuilder – with incentive reductions independent from the other incentive reductions
- Longer reservation periods; 12 months before expiration

Page 37, line 26, **INSERT**:

“IT IS FURTHER ORDERED that \$500,000 be set-aside, from the UFI residential budget, for production and custom home builders in 2012. If there are remaining funds, that have not been reserved by October 1, 2011, those funds can be reallocated to the DE RES budget.”

**Male All Conforming Changes.**

Arizona Corporation Commission  
**DOCKETED**
